Website Design, Rebuilding and Management

We can set up your web page (website design) for you, for a Once of Fee of \$850.00 (+ GST)
This includes the following:

We can build websites to your needs and if you know of a website style that you like, we can build that website the same or close to that style.
We collect the photos and information that you want noted on that website; we build it with the information you have given us
We come back to see you and show you what has been done, note changes and extras that need to be added, make those changes.
We come back to you for a final viewing; and if you are happy with the webpage then we load it up to the 'World Wide Web'
We also - after the web page is loaded, make an appointment with you and show how to make changes to your website,
We show you how to view your hit statistics (visitors that visited your website)
We show you how to add email and change emails to your website etc
We also show you how to have your email program (outlook express or Microsoft outlook) operate with your website email addresses
We can also show you with your website back up your website to your hard drive or a spare hard drive in case the WWW crashes; however your website **is** also ways backup weekly by our web hosting services, so you will never lose your website that has been designed for you.

Website Management

We also offer 'Website Management' - what is website management you ask?
This is where we rebuild your website and manage it for you, the upfront cost for this service is the same as above and ongoing management cost is at just \$45.00 per 30 minute intervals. Which service you do choose, you can go ahead about your business without the concern about your website.
Because this service involves:
Rebuilding your site or enhancing and sharpening your websites look
Making changes e.g. uploading documents, changing information or adding information pages, PDF's and inserting new pictures
Checking with you about the new changes
Backing up your whole website to an external source weekly
Moving your whole site from your current domain and hosting agent over to our website management

Websites that we have built for our clients and currently under management:
